Cross (me) Knot designed by [Ctrl+Zak](#).

Cross(me)Knot combines traditional Tibetan and Nepalese designs (where cc-tapis has it's production) with typical European motifs. After meticulous research into carpet weaving techniques in both European and Asian cultures, CTRLZAK's collection of hybrid carpets unite traditions, both visually and technically, forming new and unique pieces.

CTRL ZAK

CTRLZAK is a hybrid studio that integrates diverse disciplines and cultures. Founded by artists and designers Katia Meneghini and Thanos Zakopoulos, the duo's creations are inspired by their experiences around the globe, their own rich cultural backgrounds, and the natural world that surrounds us. The studio creates artworks, objects and spaces but above all points of reflection where form follows meaning. CTRLZAK's projects and extensive research into tradition and cultural context create a new hybrid future by learning continuously from the past. Each project is a story waiting to be told, with a multitude of forms and endings. Each one experiments with diverse methods of narration where symbolism and irony go beyond aesthetics and functionality in order to make people contemplate their actions and the world that we live in. CTRLZAK's creations have been extensively exhibited in galleries around the world and their work has been selected by museums and institutions like MOMA, the Louvre and the Venice Art Biennale, to name a few.
