## Typography<sup>®</sup> System

*Design: Studio Truly Truly*

TYPOGRAPHY is a graphic lighting system, reflective of the multi-disciplinary talent of its designers and the manufacturing and specialist technical abilities of Rakumba. An advanced rail, almost impossibly thin, allows for the complete mobility of any light along the line. Each light can be positioned on four sides of the central axis and can be controlled independently of any other. Combining multiple rails in vertical or horizontal orientations enables TYPOGRAPHY to be formed into endless expressions; simple pendants, chandeliers and room dividers, almost limitless design solutions.
