

GENTLEMAN NIGHT COLLECTION

MARCEL WANDERS STUDIO 0

DESCRIPTION

The Gentleman collection, designed by Marcel Wanders, expands from the living room to the night area. Like the original core, made up of armchairs, pouf, and sofa, the new extension too is distinguished by its classic and exclusive style and attention to detail, a perfect mix of comfort and refinement. The bed resembles the high headrest of Gentleman Reserved with the tall and curved design of the headboard. Classic references for night table and chest of drawers, with top in matlacquered colours.
