

**DESCRIPTION** The Beak Ceiling/Wall's adjustable cylinder directs and projects a beam of direct light. Its smooth, burnished brass finish is accented by knurling on the head, adding visual rhythm to the structure. Also available in a Flat version with a reduced-thickness canopy, Beak Ceiling/Wall can be installed on both walls and ceilings, making it ideal for contract settings. Beak is also available in floor, table, suspension versions and another ceiling model.
