EXCLUSIVE LAMPS

Made in Italy

Andrea Lanaro, CEO and Founder of OLEV

Creare emozioni con la luce
è una delle cose
che più mi emoziona.

Creating emotions with light
it's one of the things
which thrills me the most.

OLEV

Italian *Story*

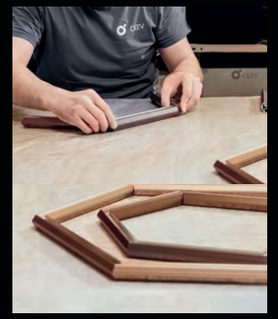

1970’s

Nasce l’azienda a conduzione familiare. Si producono lampadari in ferro battuto a mano.

Foundation of the company. Handcrafted wrought iron chandeliers were produced.

2000

Arrivano i primi LED sul mercato e OLEV cambia direzione: inizia a produrre lampade di design dalle forme originali.

With LED revolution, OLEV became an industrial company based on production of designer lamps.

2014

OLEV crea lampade innovative in grado di imitare la luce del Sole, di assorbire i rumori, di purificare l’aria.

OLEV started producing innovative lamps designed to replicate sunlight, absorb sound, and purify the air.

2020

La lampada Ottomano di OLEV vince la menzione d’onore agli European Product Design Award.

OLEV’s Ottomano lamp won the honorable mention at the European Product Design Awards.

2023

OLEV vince il prestigioso titolo italiano Altagamma Design Awards.

OLEV won the Italian Altagamma Design Award.

2025

OLEV illumina progetti prestigiosi tra cui il ristorante 3 stelle Michelin ‘Atelier Moessmer’ di Norbert Niederkofler.

OLEV illuminated prestigious projects including the Michelin-starred restaurant ‘Atelier Moessmer’ by Norbert Niederkofler.

2025

La lampada a sospensione Baryon vince il Good Design Award.

The Baryon pendant lamp won the Good Design Award.

OLEV

Italian
Made in Italy

ORIGINALITA' ITALIANA
Nascono come pezzi unici, le nostre lampade sono create con cura artigianale e assemblate a mano nel nostro stabilimento italiano di Colceresa.

ONE-OF-A-KIND LIGHT
Elegant and refined, our lamps are curated as unique pieces, assembled in our Italian factory in Colceresa.

OLEV

Light for visual comfort

COMFORT VISIVO
I filtri a nido d'ape delle lampade OLEV eliminano qualsiasi bagliore o riflesso indesiderato, garantendo un comfort visivo ottimale per i nostri occhi.

VISUAL COMFORT
The honeycomb filters in OLEV lamps eliminate any unwanted glare or reflection, ensuring optimal visual comfort for our eyes.

BEAM MASTER TRACK 48V 60

Without honeycomb filter

OLEV
Con filtro a nido d'ape
With honeycomb filter

OLEV

Light for acoustic wellbeing

COMFORT ACUSTICO
Le lampade fonoassorbenti della collezione Silence di OLEV aiutano a ridurre la rumorosità degli ambienti, aumentando il benessere del corpo umano.

ACOUSTIC COMFORT
OLEV's Silence collection features acoustic lighting designed to lower noise levels and improve overall physical well-being.

GAVIN SILENCE LEAF

OLEV

Light for natural rhythm

BENESSERE PSICOFISICO
La luce Biolight di OLEV riproduce le variazioni in tonalità e temperatura della luce del Sole durante l'arco della giornata, ricreando un'illuminazione naturale che rispetta il nostro ritmo circadiano biologico del corpo umano.

HOLISTIC WELL-BEING
OLEV Biolight mimics the Sun's natural cycle by shifting from warm to cool tones, ensuring natural illumination that aligns perfectly with our circadian rhythms.

COMFORT VISIVO

Il fascio luminoso è addolcito dal filtro a nido d'ape che elimina qualsiasi riflesso o bagliore indesiderato. Questo rende la luce morbida e assicura un comfort ottimale per i nostri occhi.

VISUAL COMFORT

The light emission is diffused by the honeycomb filter, eliminating any glare or stray light. This results in a gentle illumination that guarantees maximum visual comfort.

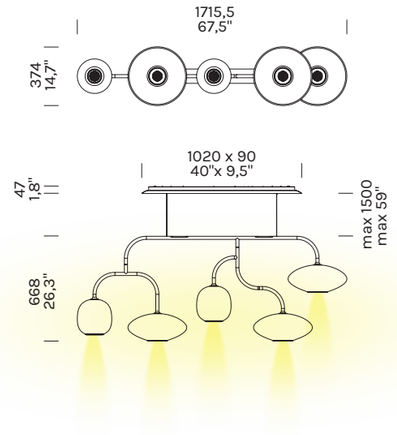

Ruotando i bracci della lampada è possibile spostare la luce adattandola perfettamente allo spazio sottostante.

Adjustable arms allow for precise light positioning over the surrounding space.

COMFORT VISIVO

Il fascio luminoso è addolcito dal filtro a nido d'ape che elimina qualsiasi riflesso o bagliore indesiderato. Questo rende la luce morbida e assicura un comfort ottimale per i nostri occhi.

VISUAL COMFORT

The light emission is diffused by the honeycomb filter, eliminating any glare or stray light. This results in a gentle illumination that guarantees maximum visual comfort.

Beam Master 60 Zummy è un faretto orientabile con fascio di luce regolabile. Ruotando la ghiera è possibile infatti mantenere costante la larghezza del fascio luminoso anche se la lampada è posta a diverse altezze di soffitto.

Beam Master 60 Zummy is an adjustable spotlight with adjustable light beam. By turning the ring it's possible to keep the width of the light beam constant even if the lamp is placed at different ceiling heights.
